Wood Firebox

Elevate your space with the Radiant CDF800L by Chazelles, a premium double-sided firebox designed for modern living. Visible from both sides, it creates warmth and ambience across adjoining spaces. Perfect for large rooms, it can be installed freestanding or within a dividing wall. Its sleek, contemporary design forms a striking architectural focal point. Ideal for renovations, it offers flexibility with a wide range of custom surrounds. Engineered for both visual impact and reliable performance. Crafted with precision to deliver enduring quality and comfort. Seamlessly integrates into both contemporary and classic interiors. A refined balance of innovation, luxury, and timeless design.
