* Varies depend upon ceiling height, installation and location of construction

The impressive combination of aesthetic beauty and high quality and performance of the Radiant C800R VE has made Chazelles the world leader in the design and manufacturing of slow combustion wood heaters. Impressions are everything and the C800R VE is the epitome of elegance and power. This model is fitted with the unique Chazelles Dual opening door system. The retractable large door disappears out of view for a true open fire burning. When closed the unit reverts to the efficiency, energy saving advantage and safety of a slow combustion wood heater. An optional ducted hot air system allows you to infuse warmth into every corner of every room. The C800R VE is fitted with the stunning door or the design collection with its removable handle.
