Chazelles has designed this innovative and superb firebox that can be viewed from either side, providing that special atmosphere. This design is best used in large rooms, in free standing unit, creating a focal point as a divider, or been installed in a wall between two rooms. The CDF800R is fitted with the unique Chazelles Dual opening door system. The retractable door disappears out of view for a true open fire burning. When closed the unit reverts to the efficiency, energy saving advantage and safety of a slow combustion wood heater. A ducted hot air system allows you to infuse warmth into every corner of every room. This model can be encompassed by any surround design you desire ...
