Wood Firebox

The Designer 150 Chazelles single-sided fireplace is assertive luxury. A 1.5 metre wide glass frontage that turns flames into a living artwork. With a massive 50 kW heat output, it effortlessly heats huge open-plan living areas, high ceilings, and adjoining rooms. One fire, yet a whole-home presence. The glass stretches wide, the flames roll deep, and the heat hits hard, all while maintaining the refined and elegant European designer aesthetic Chazelles is known for. This isn't just a fireplace for ordinary spaces - it's for homes and entertaining spaces that demand grandeur the moment you walk in.
