Wood Firebox

The OR90 is more than just a fireplace, it's a true statement piece designed to shape the feel of a room. With its striking 3-sided design and generous flame visibility, it works beautifully as a natural room divider, adding both warmth and visual glamour while subtly defining open plan spaces. Beyond its standout appearance, the OR90 delivers a strong wood-burning heat output, making it as practical as it is impressively aesthetic. Perfect for those wanting to create atmosphere, structure and a sense of luxury within the home, the OR90 brings together bold design and everyday performance with ease.
